

ANSHUL RAWAT

Full Stack Developer | React Developer | Python Developer | MERN Stack Developer | Node.js (NestJS) Developer
+91 9953540593 | anshulrawat5124@gmail.com | Faridabad, Haryana | LinkedIn | GitHub

SUMMARY

Full Stack Developer with strong expertise in React.js, Node.js (NestJS), Python, and MERN Stack, with a solid foundation in Data Structures & Algorithms (DSA). Experienced in building scalable web applications, RESTful APIs, and backend systems with focus on clean architecture, system design, and real-world engineering challenges. Skilled in authentication, API integration, caching, asynchronous processing, and delivering secure, efficient, and production-ready applications.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS

Backend: Node.js, NestJS, Express.js, Python, FastAPI, RESTful APIs, JWT, OAuth

Databases: PostgreSQL, MySQL, MongoDB, Schema Design, Indexing

Core: Data Structures & Algorithms (DSA), System Design, Scalability

Tools: Git, GitHub, Vite, Redis, Kafka, Docker, CI/CD

PROFESSIONAL EXPERIENCE

SGSN Associates Pvt. Ltd., Rishikesh — Full Stack Developer Intern (Aug 2025 – Nov 2025)

- Designed scalable web applications across 10+ projects using React.js, Next.js, and Tailwind CSS with focus on performance and usability.
- Constructed reusable frontend components utilized across multiple modules and features to improve maintainability.
- Created RESTful APIs using Node.js and Python (FastAPI) supporting multiple workflows and integrations.
- Optimized PostgreSQL queries using indexing and applied Redis caching for efficient data handling in production scenarios.
- Applied backend architecture aligned with NestJS patterns and scalable system design principles.
- Collaborated in Agile environment, contributed to code reviews, and followed CI/CD workflows.

Interpe, Dehradun — Frontend Developer Intern (Sep 2023 – Nov 2023)

- Built responsive and cross-browser UI components across 5+ projects using HTML, CSS, JavaScript, and React.
- Integrated APIs and handled asynchronous data flows across multiple frontend modules.
- Enhanced frontend structure, readability, and performance using optimization practices.

PROJECTS

Audio / Video Downloader

- Developed a full-stack application supporting scalable backend services and RESTful APIs.
- Architected backend using Python FastAPI with asynchronous processing for concurrent task handling.
- Integrated yt-dlp and ffmpeg for efficient media processing workflows.
- Crafted responsive frontend using React with seamless API communication.

Expense Tracker

- Established a comprehensive expense management system with dashboards and analytics features.
- Implemented authentication and secure API communication with structured data handling.
- Engineered frontend using React, TypeScript, and Tailwind CSS with clean UI and state handling.
- Integrated backend services using Supabase for data storage and user management.

EDUCATION

Uttaranchal University, Dehradun — B.Tech in Computer Science (2020 – 2024)

Govt. Model Sanskriti Senior Secondary School, Faridabad — Higher Secondary (2018 – 2020)

CERTIFICATIONS

React JS Certification — Scalar

Closing the AI Value Gap - from Copilots to Agentic Automation (2026)
